## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 7-10 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by **CH 656178 A5**. '178 A5 shows a first elongate member (1), a keyway (where end 6 is inserted), a second member (5), a key member (6) within the slot enabling adjustment radially, a second elongate member (2) having an axial opening (inherent structure for receiving pin 11), and stop means (28) to limit the depth of the key in the slot.

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 6, 11, 12 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over **CH 656178 A5**.

'178 A5 discloses the invention as claimed but for the second element in form of a threaded member. It would have been an obvious matter of design choice to make

the different portions of the attachment portion of the second element in form of a threaded member or whatever form or shape was desired or expedient. A change in form or shape is generally recognized as being within the level of ordinary skill in the art, absent any showing of unexpected results. *In re Dailey et al.*, 149 USPQ 47.

As to claims 11 and 12, it would have been obvious to use the hinge of '178 A5 to attach any door such as a vehicle door, a vehicle window, a hatchback, a box a cabinet, a refrigerator etc., to enhance the adjustability of the hinge, as taught by '178 A5.

#### ***Allowable Subject Matter***

5. Claims 3-5 and 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
